- ❖ Personal Care
- ❖ Industrial Utilities

PARTNERS

 An ITT Company	Process equipment — pumps, valves, heat exchangers for hygienic processing
	Instrumentation and automation for process measurement and control
 FLUID PROCESS GROUP	Hygienic valves, fittings and sampling systems for sanitary process lines
	Membrane Pleated filter Cartridge High Flow Filter Cartridge MBR Membrane Elements PP & SS Filter Housings
	Pneumatic Components
	Actuators Flow control valves
 Make the work easier	Aerial Work Platform Cargo handling Equipment
Other Global OEM Partners	Process Equipment Filtration Components & Chemicals Automation Spare Parts

PRODUCTS & SOLUTIONS

- Process Engineering Consultancy
- Process Optimization
- Equipment Selection
- Installation Supervision
- Plant Audits
- Preventive Maintenance Support
- OEM Spare Parts Identification
- Commissioning Support

Vision & Mission

Our vision>

To be the leading preferred distributor of premium industrial spare parts in East Africa, enabling businesses to achieve greater efficiency, sustainability, and uptime through quality solutions

Our Mission>

To deliver genuine, high-performance spare parts from global OEMs (Original Equipment Manufacturers)

To exceed customer expectations through technical expertise, reliable supply, and exceptional service.

To support clients with after-sales support and parts optimization advice.
